2009 Conquering Cancer - The Empowered Patient's Complete Reference To Gastrointestinal Carcinoid - Diagnosis, Treatment Options, Prognosis (Two CD-ROM Set)

Synopsis

This up-to-date and comprehensive set of two CD-ROM discs provides a superb collection of official Federal government documents on gastrointestinal carcinoid: signs and symptoms, diagnosis, lab tests, treatment and management options, and ongoing clinical research. Every aspect of the disease is thoroughly covered. Gastrointestinal carcinoid tumors are an indolent (slow-growing) cancer that forms in cells that make hormones in the lining of the gastrointestinal tract (the stomach and intestines). It usually occurs in the appendix (a small fingerlike pouch of the large intestine), small intestine, or rectum. Having gastrointestinal carcinoid tumor increases the risk of forming other cancers of the digestive system. Coverage includes treatment options, including surgery, chemotherapy, radiation therapy, immunotherapy, and vaccine therapy. For patients, practical information is provided in clearly written patient education documents. For medical professionals, doctor references and texts have detailed technical information and clinical background material. Documents from the National Cancer Institute, Centers for Disease Control and Prevention (CDC), Food and Drug Administration (FDA), National Institutes of Health (NIH), Environmental Protection Agency (EPA), Medline, Centers for Medicare and Medicaid Services (CMS), and Occupational Health and Safety Administration (OSHA) are included. In addition to disease-specific information, there is extensive coverage of the broad subject of cancer and its prevention and treatment (surgery, chemotherapy, radiation, advanced treatments, managing side effects). There is no other reference that is as fast, convenient, and portable - everything you need to know, from the federal sources you trust. Since navigating the Internet to find medical information can be confusing, our exclusive "Guide to Leading Medical Websites 2009" has updated links to the 67 best sites! Weblinks let you quickly check for the latest clinical updates directly from the government and the best commercial portals, news sites, reference/textbook/non-commercial portals, and health organizations. Comprehensive cancer coverage includes: FDA Office of Oncology Drug Products, Oncology Tools - approved drugs, patient liaison * Dictionary of Cancer Terms (4000 items) * Division of Cancer Biology * Cancer Bulletin - archive of informative articles from NCI publication since 2004 * Cancers by Body Location, System * A-Z list of cancers * Clinical Trials * Complementary and Alternative Medicine * Coping - Complications and Side Effects - fatigue, pain, cardiopulmonary syndromes, cognitive disorders and delirium; fever, sweats, hot flashes; gastrointestinal complications, hypercalcemia; lymphedema; pruritus; sexuality and reproduction; sleep; nutrition; eating hints; emotions, anxiety, depression, adjustment, post-traumatic stress disorder; substance abuse; transitional care planning; radiation, home care, when cancer returns; Care for the Caregiver; Survivorship - end of life issues, advance directives, coping with advanced
