## Customer Reviews

Gettysburg: The Story of the Battle with Maps is a book that was seriously needed for a long time. All of us who cannot visit the site of the battle, want detailed maps showing the hills, their elevation and the array of forces which clarify the book descriptions of the skirmishes and battles. The book calculates the positions by the hour (or near about that) throughout the 3 day battle. As the reading progresses, one is drawn into not merely the placement of the troops by Union General Meade and his subordinates and Confederate General Lee and his subordinates, but the reasons for the decisions they were making. One of the surprising elements in the book is the presentation of the All---Too---Human officers. One Union commander in the Day 2 Fighting, cunningly arranges to place his troops way out in front of the rest of the Union Line on Cemetery Ridge (Sickles). A Confederate commander refuses to advance his troops and attack Cemetery Ridge, opting for

reasons yet unknown, to remain in the shelter of Seminary Ridge on Day two (Mahone). Then there are the commands given to officers on either side who do not directly disobey orders, but don't exactly "hurry along" to deploy either. One of the Union Officers risked court-martial, when he disobeyed his own deployment orders to rush troops instead to Little Round Top at the far left of the Union Line. In all, every page is full of data that makes you want to do further research. What happened confederate commander Mahoney? Why does the public not know of the Gallantry, the Valor, and the Sacrifice of the Union's 9th Massachussets?
