Do You Have Prostate Cancer? A Compact Guide To Diagnosis And Health

Synopsis

If you have had an abnormal prostate test (PSA, digital rectal exam, or other lab test), this 132-page book provides the most up-to-date information about prostate health, additional tests, and prostate biopsies. All the information in *Do You Have Prostate Cancer?* is presented in an easy-to-read format designed to simplify the decisions about your health and the health of your prostate. Interactive exercises, flow charts, tables, and other colorful graphics break up the information in this book into bite-sized pieces. Because informed patients make better choices, this book was created as a doctor's office companion that anticipates the conversations you would have with your doctor in 3 to 4 office visits. Written by a doctor and patient team, *Do You Have Prostate Cancer?* gives you a unique and informed perspective on prostate health and wellness from the forefront of prostate cancer research and treatment. Dr. Emilia Ripoll, MD is a Colorado-based urologist and urologic oncologist who has been practicing for more than 25 years. Mark Saunders is a 10-year prostate cancer survivor who was healed by changing his lifestyle (active surveillance). If you have been diagnosed with prostate cancer, we recommend you read *Prostate Cancer: A New Approach to Diagnosis, Treatment, and Health*.
