Customer Reviews

Sweet gift book for the lovelorn. Beautiful illustrations that bring back memories of reading Golden books as a child. The words are simple (for adults) and kind and hopeful. A good gift for the brokenhearted friend in your life, especially if they appreciate vintage or nostalgia. Of course, true to the books these illustrations are compiled from, don't expect to see people of color or same sex couples. (Think there is one black child and no other non-whites, if memory serves. I first borrowed this at the public library, then bought for a lesbian friend who had just experienced a rough break-up.) If this bothers you, this may not be the book for you. But the pictures are sweet and the words/message about love universal IMO.

This was a gift for my wife and she loved it. There are a few of these now and she adores each one. I checked one out and I admit the author came up with a clever idea which makes use of the old Golden book drawings we of a certain age fondly remember. Lots of fun and a good gift for the right person.

I love this delightful and clever spin on the classic Golden Books series. Beautiful, well crafted books. Perfect for gift giving. This one is obviously great for Valentine's Day. I am also giving it to my mother for her wedding anniversary.

Wonderful book for grown-ups who love Little Golden Books. The story is not for children. It is a sweet story about grown-up love, about feeling like you'll never meet the right person, how dating can be glamorous but sometimes the simple dates are the best, when you do find true love don't leave your friends behind, then it discusses all the wonderful things that love is, and how love can end suddenly, shockingly, but it will come again, put on your big girl panties and take a chance on love again! So sweet and cute. Each page is an illustration from an old LGB from the 40-60s with all the famous artists represented and some I'd never heard of before. Each page tells you the book the illustration is from. I liked this just as much as the Christmas one! Lovely to browse through and such a sweet story.

We love the pictures and many of the original books, but the text is nothing special. Each page has a reference to the original book that the picture came from, these are nice to have.

Love this book! My husband gave it to me for Valentine's Day and it is such a delight to read. Each illustration tells you at the bottom which Golden Book it is from originally and the message of love is very sweet.

I absolutely adore these books by Diane Muldrow. Having grown up on a steady diet of Golden Books, I identify with these pictures. Muldrow does a fantastic job of combining the nostalgic with a new story line. These books make me happy.

OMG, I first saw this book at Target during Valentines Day, purchased the last one... came onto and purchased two more. I grew up reading Little Golden Books, this book was done so cute... I cried well reading it. Gave a copy to my teenage daughter and my young adult niece and a friend who was going through a break up. Highly recommended!
