Customer Reviews

Good book but it didn't specify whether or not there were answers provided and there aren't any.

Awesome book, small one. Came super fast. The textbooks are not available and are expensive. Workbooks are cheap as everyone buys them. Textbooks only schools buy in USA. Students in general do not buy in public schools hence super expensive. In other countries students buy textbooks so they are cheap!

Did not come with a cd for the audio and video activities. :(

My son's grade went up after using this book, From a "C" to an "A". Easy to use. And he can use it at home too.

A great accompaniment to the text book. There are additional free resources on the internet with the main textbook, if you want even more practice.

Book arrived as promised, in excellent condition. Someone stole my son's first book from school so we needed it in a hurry, I wrote his name on every page in the book this time. Will definately order from this vendor in the future.

This workbook has helped my daughter very mush with her first year in spanish. She would have no way to study at home with out it.

Good workbook for 1st Year Spanish students.
